## The Truth about Biostar Technology International LLC

Aka Biostar NLS

First of all, this website contains a lot of information both on Vector NLS Biores\DKG and Diacom-usa aka Biostar NLS

Staus in july 2018 after depositing in the usa and Czech republic, the brand **Vector NLS** \*wich is still pending and **NOT** active. So if other companies complain, it will **not pass** ! They try to steal and manipulate the market and threatening other companies in the usage of NLS. This is really criminal based on a NON existing trademark (not active) and has no other legal groundings.

Note: even if the brand will pass and accepted, they have NO rights of ownership on all the NLS software, and NO copy rights ownership.

Example: Coca Cola has the trademark rights but many others produce cola ....

Or car producers like Mercedes, Nissan, Chevrolet, may not produce CARS ...? ☺

But they are very hungry because they want their own Vector NLS on the market in 2019 (they already did steal the Biostar NLS from Diacom (based on brand > diacom-usa <)) However, its still a design because they are waiting for approval of the USA brand reg. office. So this is a very riskfull action wich they now are doing treathening other NLS companies.... And of course fit is raudulous and criminal family behavior. Not the normal business behavior.

So what about the history and “false” acting “Diacom & Vector” rights ? Lets see.

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***  
**What and When to File:**

**First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§ 1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

**Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. § 1059.

**Requirements in Successive Ten-Year Periods\***  
**What and When to File:**

You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declaration of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§ 1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. § 1141. For more information and renewal forms for the international registration, see <http://www.uspto.intellectual.org>.

**NOTE:** Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**NOTE:** A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the

Re: Federal Trademark Application Publication Confirmation (my ref: VectorNLS-T-01)

Dear Anatoliy,

This letter is to confirm that your trademark application serial number 86/674,843 for VECTOR NLS BIOFEEDBACK will be published on January 16, 2016 in the Official Trademark Gazette for a thirty day publication period.

During this time, any other entity who has a potentially conflicting mark may institute an opposition proceeding against your trademark application or request additional time to do so. If an opposition is received, your application will be suspended pending the outcome of the opposition proceeding with the Trademark Trial and Appeals Board. However, assuming that no opposition or extension to file an opposition is received during the publication period, your application will mature into a federal registration.

In closing, no further action is required by you at this point. We must merely wait for the public opposition period to pass.

Sincerely,

## TRUTH ABOUT DIACOM

**WARNING ABOUT DIACOM OWNER FROM THE RUSSIAN FEDERATION**

"Recently on the "Diacom" website their was an announcement that A.Vyhovanets sells fake units of "Vector", which receives from Alexander Mzyaka of Moscow and there were attached screenshots allegedly proving this therefore I, A.Mzyak , want to give the following explanation.

I'm a doctor, since 1998. Worked on the NLS-systems of different manufacturers, know their strengths and weaknesses. In 2000 I opened a center of computer diagnostics "Nelian", and directed that center for almost 12 years. In 2004, I was approached by Khachatur Davidovich Mkrtychyan (Unemployed engineer, who returned from Ecuador after a failed immigration) and he proposed that I travel with him to Ecuador and sell a few "Oberon." After our trip we were left with one "Oberon" so I begin to teach him to work on it. A short time after, Khachatur appeared as founder of the "corporation" Diacom "and brought" designed by talented programmers, engineers, designers and doctors "(as it was written on the website"DIACOM ") instrument of the same program.

During this time there was a miraculous transformation in Khachatur from a great admirer of "Oberon" to implacable enemy. He began to declare that "Oberon" is entirely fake, but "DIACOM" the best NLS diagnostic system out there. But for some reason the scheme or software of "Oberon" and "Diacom" were very similar, and program "Diacom NLS» («Nexus» later) differed from the "Metapatia 3" only in name and the color of the interface (I can put

### BEWARE OF KHACHATUR MKRTCHYAN OF DIACOM TECHNOLOGY

DIACOM TECHNOLOGY DIACOM TECHNOLOGY

In 2010 I purchased I met with Khachatur in Ecuador and purchased my first DIACOM device as a demo unit to begin promotion in the USA. At that time no one knew about Diacom in the USA and I was the very first distributor to promote the Diacom device here. I worked with Khachatur promoting Diacom for 4 years and in that time sold machines which added up to almost \$400,000 USD at distributor cost. I traveled with Khachatur as his friend and translator, introduced him to his distributors in Taiwan, South Africa, and USA; after which we undercut me and started to work with these people directly without me knowing.

Diana and I have invested a lot of our time and personal finances to introduce Diacom to the USA market as well as other countries, I sponsored him and his family to come to the USA and as time went by Khacahtur was willing to work with our clients directly and cut us out. He became controlling and demanding. After working hard to sell machines, provide training, translate, and bring his machine the market, Khachatur wanted us to sign a contract that demanded we have a specific amount of sales or he would work with someone else (as he did).

When I saw that there was no future with Diacom because of Khachatur's lack of integrity, I decided to work with the original Oberon machines and company. Of course Khachatur was not happy so he started to block machines which were paid in full over the 4 years of business and telling people those machines were stolen.

I often paid him in advance for inventory and when we split up I had about 4 machines unpaid for. So, I sent those machines to his new USA distributor to make sure I did not owe him anything. Now, 2 years later, he still is blocking machines and says I owe him more money.

He mentioned in a post on their website that we were terminated by him for not getting FDA registration and not providing quality support to our customers. Please think about this logically, DIACOM still does not have FDA registration and never will be, FDA registration can cost up to \$500,000 USD, how can he expect us to have paid for this and done this on our own? Also, as support is concerned, he placed a screen shot of 1 single South African client who actually had a machines free for 30 days and refused to pay for it, of course we cannot support someone who has not even purchased a machines. We have sold hundreds of machines and the only complaint he found was the false one in South Africa. This is completely unethical.

If you decide to work as a distributor for DIACOM here are a few things to keep in mind:

1. Never pay for inventory in advance
2. Never introduce Khachatur to your clients
3. Tell your clients about the ability of Khachatur to block machines at any time for any reason
4. Be aware that he values money above everything, if you do not do what he demands he will replace you.  
Notice on their website [diacomsoft.com](http://diacomsoft.com), he changes USA distributors 2 times in the last 2 years. Imagine investing your time and finances only to be replaced.

**BLOCKING FULLY PAID MACHINES IS ILLEGAL. ONCE THE MACHINE HAS BEEN PAID OFF, IT BELONGS TO**

BLOCKING FULLY PAID MACHINES IS ILLEGAL. ONCE THE MACHINE HAS BEEN PAID OFF, IT BELONGS TO THE CLIENT, IT IS THEIR PERSONAL PROPERTY. KHACHATUR BLOCKS MACHINES AND HAS THE ABILITY TO BLOCK AT ANY TIME. THIS IS NOT DISCLOSED IN THE PURCHASE WARRANTY CARD.

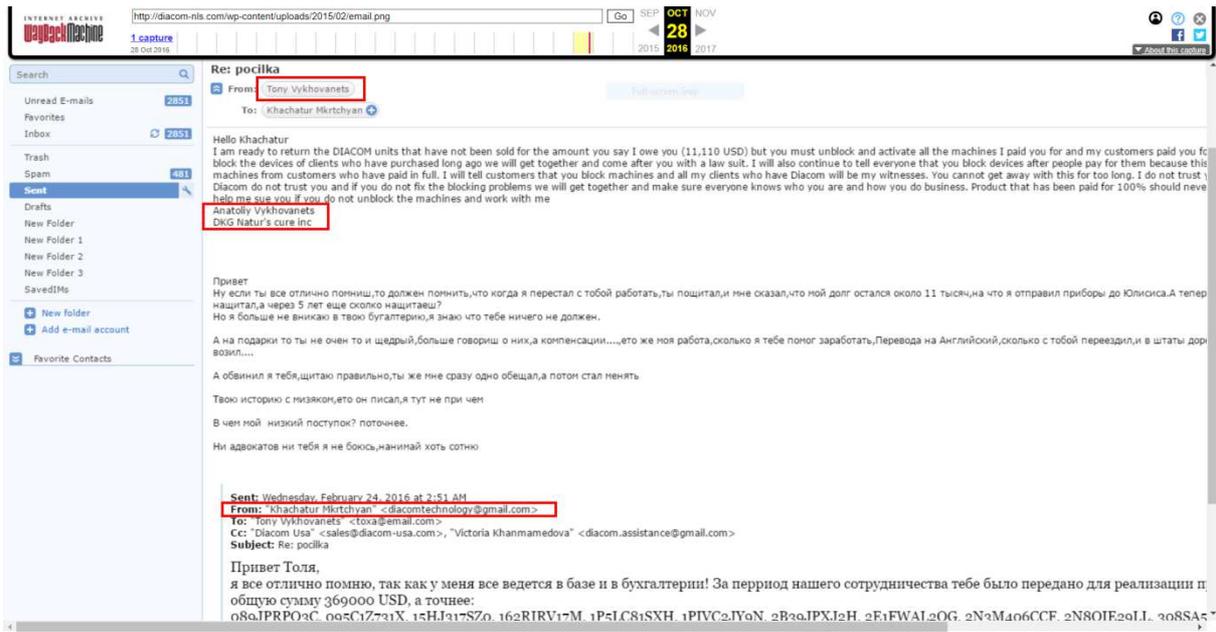

## PROOF OF OUR EXPERIENCES LISTED ABOVE

### MY SPONSORSHIP OF KHACHATUR AND HIS FAMILY TO USA

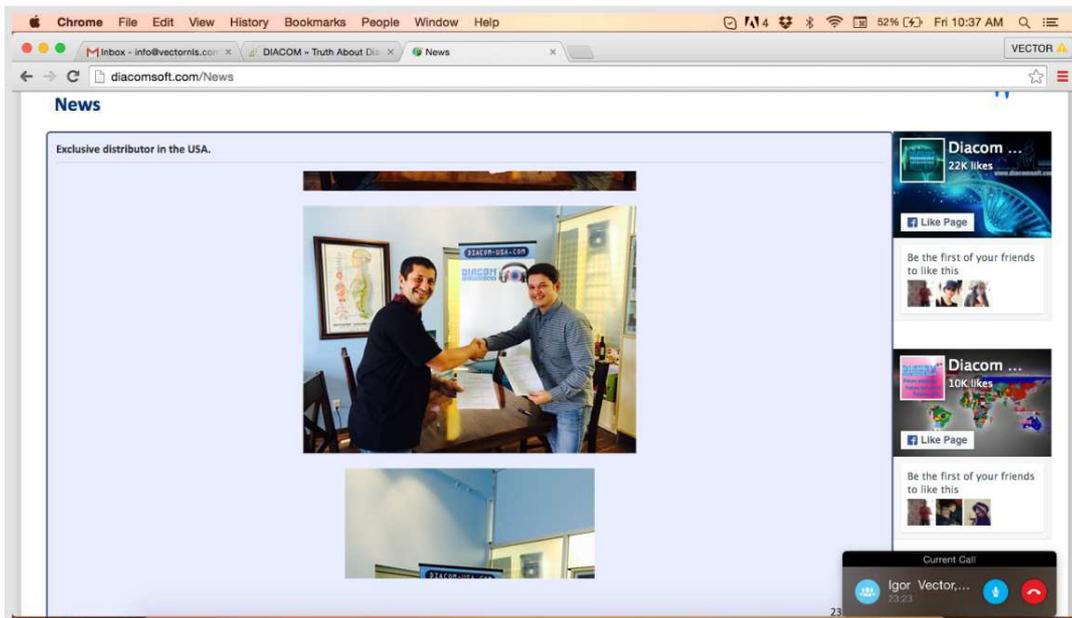

SO WHAT IF Biostar NLS got the Trademark from DKG ..... (just imagine)  
Also then it is NOT legal , just see this email.

It gives PROOF that DKG was also a distributor ONLY of Diacom .....

IN 2 YEARS DIACOM HAS CHANGED THE USA DISTRIBUTOR 2 TIMES, THIS MEANS THAT HE WILL REPLACE ANYONE AT ANY TIME NO MATTER HOW MUCH MONEY AND TIME YOU INVEST AS THE DISTRIBUTOR

SOUTH AFRICA SITUATION AS HE EXPLAINED ON HIS WEBSITE

**News**

Official announcement about the situation in the USA!

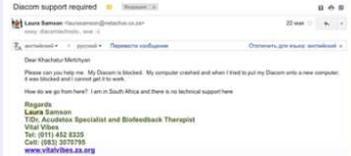

Dear users of the products of the company DDIAGNOSTIC TECHNOLOGY,

During the last couple of weeks in the regional office of the United States took place global changes. Due to the large violations of the terms of distribution by the company "DKG Nature's cure inc." and periodic deceptions towards users about the true capabilities, price and availability of the products, as well as falsification of information, it was decided to cease cooperation with the company mentioned above, as well as with its owners and employees – Mr. Anatoly Vykhojanets and Mrs. Diana Brown (Vykhojanets), etc. Unfortunately, these people behave dishonestly, not only in respect of users to whom they have sold devices, but also in relation to the company - manufacturer and in particular in relation to the company's founder. Setting few times the price and the obstacles to introduce our users the complete information about the products and its features, as well as the reluctance of the obtaining registration of products sold in the bodies of the FDA for the legal sale, make us to carry out a full inspection of the company for the loyalty towards our customers.

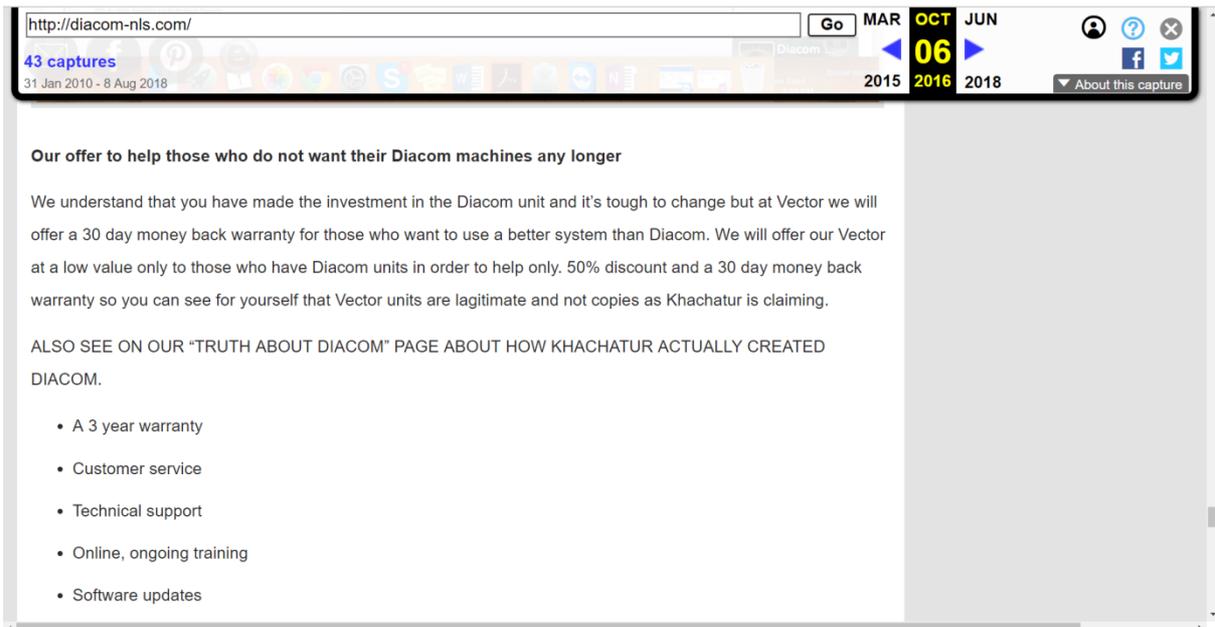

The inspection found:

1. After the sale of the devices to the user, from the side of the distributor was not performed enough action to provide training and further service and technical support.
2. In particular, in South Africa, where the company mentioned above sold few devices, users were not only able to work with the devices, but even did not know how they can get the latest software, as well as the possibility of the exchange of the old modifications of the devices to new ones under the conditions of the program "Devices exchange".

In order to confirm the above mentioned facts, here's a screenshot:

So DKG has a huge fight with Diacom Technology BUT was only a distributor !

They started to sell Vector

And then Biostar now tried to steal the trademark (wich is NOT active) and already started to manipulate and chantage the other NLS companies.

\*This company is already on the market for 30years with vector (design) software and the logo is very alike. They really have the Trademark Vector for 30 years !!

**VECTOR** 

BUT THEY DO NOT HAVE THE RIGHT(S) to do so.

And this is the real Diacom

**And this is the history of the false claims of Biostar NLS vs Diacom**  
<http://ttabvue.uspto.gov/ttabvue/v?pno=92066765&pty=CAN&eno=8>

... on the registrant's website page it is clear that the Registrant conducts unfair competition. The Registrant uglified the trademark that I had registered in Europe under number 1319213, **Exhibit 2**.

The Registrant distributes false information through the e-mail and its web site, claiming to be the manufacturer of the original appliances actually produced by me, and proposes to exchange the alleged "old apparatus" with the "new ones" with "an American Design" **Exhibit 3**. This has created confusion in the marketplace, and I have already received repeated questions from the consumers about the "change of design" and other things that have been initiated by the Registrant unlawfully and should be regarded as actual confusion. You can read all in pdf or split your screen to jump from 1 to 2e doc etc.

Conclusion: Diacom made mistakes by not using a usa lawyer....

Biostar has the Trademark diacom-use BUT this does not mean

1. Rights to make/sell diacom devices + software
2. No Rights on software right + copy rights
3. No rights whatever

The only right is to use the name diacom-usa by fraud !

So this trick worked partly and now they try with Vector NLS ....

But already being fraud + chantage to the NLS market.

Since it is a login page

<http://www.diacomsoft.com:80/Publications/Falsification>

And of course the imitated Nexius from Diacom and named it Biostar Nexius ....

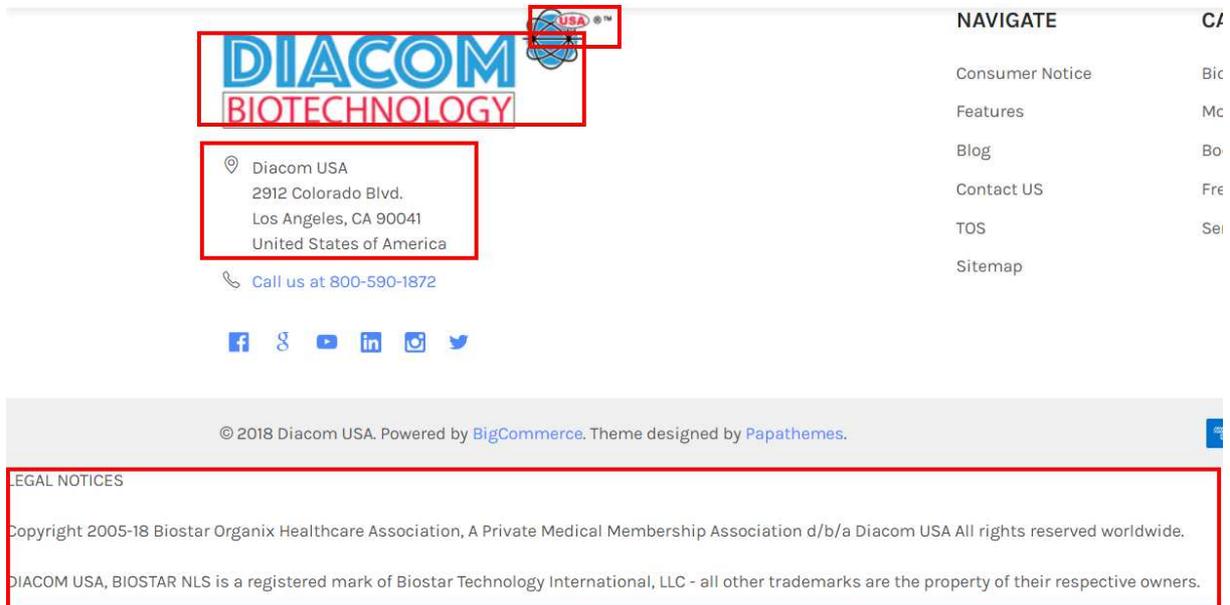

<https://www.diacom-usa.com/biostar-nexius-biofeedback-system/>

So Biostar NLS was/is cheating on both Diacom Technology AND DKG ....

And also cheated on names like  
<https://www.diacom-usa.com/monthly-sale/>

Selling old stuff in clearance

Using \copying others

The screenshot shows the Diacom USA website. The main header features the "DIACOM BIOTECHNOLOGY" logo in blue and red, with a small "USA" logo to its right. Below the logo is a location box containing the address: "Diacom USA, 2912 Colorado Blvd., Los Angeles, CA 90041, United States of America". A phone icon and the text "Call us at 800-590-1872" are also present. A row of social media icons for Facebook, Google+, YouTube, LinkedIn, Instagram, and Twitter follows. On the right side, a "NAVIGATE" menu lists: "Consumer Notice", "Features", "Blog", "Contact US", "TOS", and "Sitemap". The footer contains the copyright notice: "© 2018 Diacom USA. Powered by BigCommerce. Theme designed by Papatemes." Below this is a "LEGAL NOTICES" section with the text: "Copyright 2005-18 Biostar Organix Healthcare Association, A Private Medical Membership Association d/b/a Diacom USA All rights reserved worldwide. DIACOM USA, BIOSTAR NLS is a registered mark of Biostar Technology International, LLC - all other trademarks are the property of their respective owners."

BIOSTAR is also a illegal trade name since BIOSTAR a computer company is already on the market for 30 years since 1986 !!!
